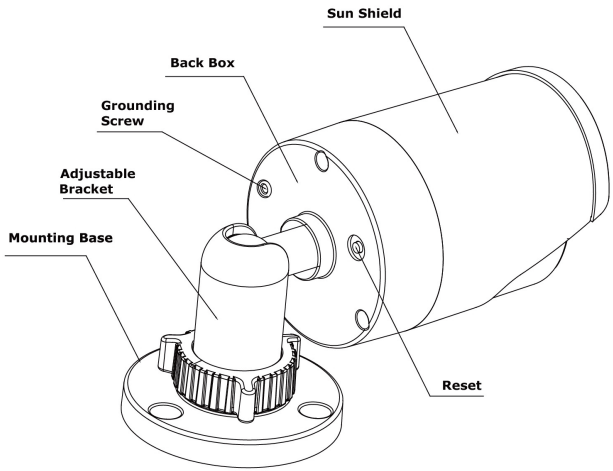
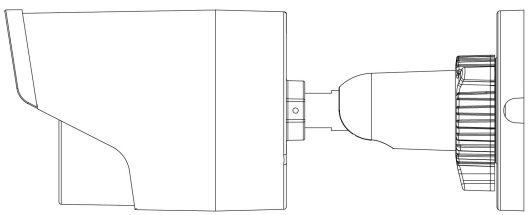
Bullet Type IP Network Camera

Quick Installation Guide



Product Structure Diagram



Bullet Camera Overview

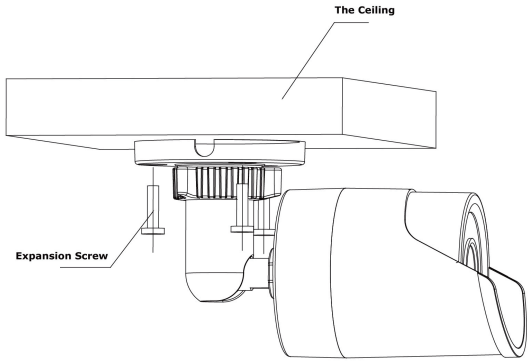
Installation

Note:
Please make sure that the ceiling is strong enough to withstand three times the weight of the camera and the housing.

Steps:

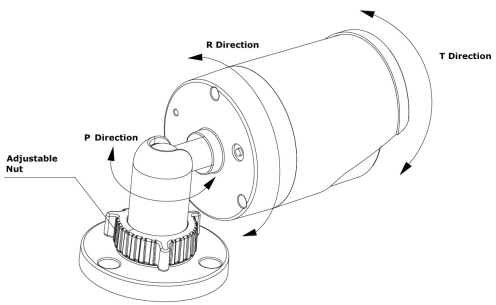
1.Install the Camera

This series of camera is designed as a whole compact structure, and you only need to secure the mounting base to the ceiling with the supplied P A4 screws.



2.Three-Axis Adjustment

Loosen the adjusting nuts on the bracket, and adjust the camera from P/R/T direction.

P Direction: 0~360°adjustable.
T Direction: 0~90°adjustable.
R Direction: 0~360°adjustable


Adjust the lens to the surveillance angle. Tighten the adjusting nuts to complete the installation.
