Technical Specification

Electronic

Working voltage	DC12V
Working current	20mA
Starting current	300mA

General

Applications	Wooden door, metal door, fire door, etc
Life	>100 W
Bolt length	22mm
Weight	1.25kg
Security type	Keep state while power off

Working Environment

Working humidity	10%~95%RH
Working temperature	-30°C~+60°C

Dimensions
