

2-Way Audio Kit with 30W RMS Amplifier, Line-Level Microphone and 4" Wall-Mount 70/25V Speaker

2WAK3 2-way audio kit

Features

2-Way Audio is a great feature found in select Speco Technologies' DVRs. With 2-Way Audio, a person can communicate with someone in view of a camera either directly through the DVR or an Apple or Android app. Our 2-Way Audio kits provide all the hardware required to communicate using this feature.
