

2.4 GHz Intelligent Frequency Wireless Microphone Kits

M24GHK 2.4 GHz wireless microphone receiver with handheld transmitter

M24GLK 2.4 GHz wireless microphone receiver with bodypack transmitter and lapel clip microphone

M24HS Optional headset microphone for use with bodypack transmitter

Features

- Each kit includes either a handheld or bodypack transmitter
- Bodypack transmitter comes with a lapel clip microphone
- Headset microphone available for bodypack transmitter to allow more active use (order part# M24HS)
- Intelligent frequency hopping to help avoid interference
- Easy one-button setup
- Recommended 50' transmission range

Receiver Specifications:

Modulation..... GFSK
Frequency..... 2404 ~ 2476 MHz
Distortion THD..... <0.05%@1kHz
RF Sensitivity..... -78dBm
S/N..... >85dB
Audio Output Level..... 0dBu (770mV)
Power Supply DC12V, 200mA (included)
Channels 16
Frequency Response ... 20Hz ~ 18kHz, +/- 3dB
System Latency..... 8ms

Transmitter Specifications:

Modulation..... GFSK
Frequency..... 2404 ~ 2476 MHz
Transmit Power 8dBm (typical)
Distortion THD <0.05%@1kHz
S/N..... >85dB
Consumption Current ... <85mA (at 3V)
Power Supply 2 x 1.5V "AA" batteries (not included)
Usage Time Approximately 20 hours
Channels 16
Frequency Response ... 20Hz ~ 18kHz, +/- 3dB
Bandwidth..... 2Mhz
