Sound Surveillance™

HSA-8 Economical 5x8 Indoor / Outdoor Horn Speaker with Integrated 30W Power Amplifier

Description

The HSA-8 is a low cost 5 x 8 indoor / outdoor speaker with an integrated 30 Watt power amplifier designed to be used with IP cameras. It operates on 12Vdc (15W) or 24Vdc (30W) regulated power and comes with 6' leads for power and audio input. The audio input is a male 3.5mm plug designed to plug directly into an IP camera. The volume of the HSA-8 can be adjusted via a control on the bottom of the unit with a small screw driver.

Includes:

- HSA-8 Speaker / Amplifier
- Installation instructions

Wiring requirements:

Power cable can be extended up to 250' with #18 two conductor

Audio cable can be extended up to 500' with any type of shielded audio or data cable.

Options:

- None

Caution

It is the responsibility of the installation company and end user to install this audio surveillance equipment in compliance with state and federal privacy laws. If you are unfamiliar with these laws, consult a qualified attorney.
