Taking care of those you love, even from a distance

Features made for home

Wireless communication

WiFi (IEEE 802.11 b/g/n) with no complicated network cable wiring.

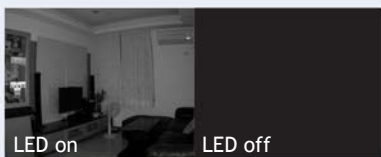

Palm-size in light weights

Small and light to fit a home environment.

No wall drilling

The camera stands on a desk or a plain surface.

Lighting alerts

Advanced motion detection even in the dark with PIR sensor. Strong illumination with its white illumination LED upon motions (CAW series only).

Mobile Supported

iOS / Android supported for live viewing and remote playback.

More Features..

Easy camera relocation

Relocate camera anywhere by re-plugging the power cable once connected to the network within same WiFi range.

Easy recording & playback

- Record directly on an inserted memory card
- Play back over the network
