

The Required Procedure for Upgrading GV-LPR2800-DL and GV-LPR2811-DL

Article ID: GV4-21-12-27
Release Date: Dec 27, 2021

Applied to

GV-LPR2800-DL firmware V1.05 or later

GV-LPR2811-DL firmware V1.04 or later

Summary

It is required to reformat the SD card of the camera after upgrading to firmware V1.05 or later for GV-LPR2800-DL, or firmware V1.04 or later for GV-LPR2811-DL. Without the procedure of formatting the SD card, the LPR recognition will not function.

Instructions

1. Install the firmware into the camera using its Web interface or GV-IP Device Utility.

Camera	Firmware Version	Upgrade To...	Upgrade Method
GV-LPR2800-DL	V1.00 ~ V1.04	V1.05 or later	Through GV-IP Device Utility or GV-Web Browser
GV-LPR2811-DL	V1.01 ~ V1.03	V1.04 or later	

2. After the camera is upgraded, reformat the SD card of the camera through its Web interface (**Storage Management > Disk Management > Format**).
