3. Remove the retention springs on the sides of the camera.

II Installation

1. Pass an Ethernet cable through the pendant pipe and the pendant adaptor.
2. Secure the pendant adaptor to pipe by turning it clock-wise until tightened.

4. Connect the Ethernet cable to the camera. When inserting the camera, align the camera's embedded **microphone** with the triangle indent on the pendant adaptor.
5. Secure the camera by driving two included screws.
6. Install the camera's dome cover.
