AIPHONE
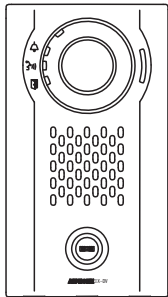

IXS-HBDV
Preprogrammed IX Box Set
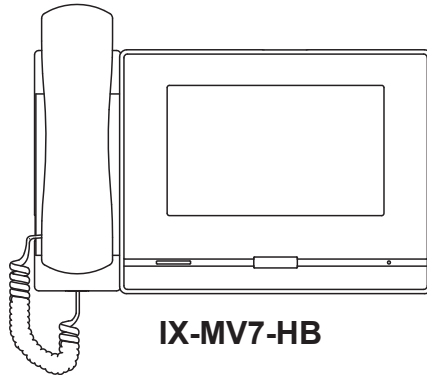

GENERAL OVERVIEW

The IXS-HBDV is a preprogrammed box set including one IX-DV, one IX-MV7-HB, one PoE switch, and a USB drive. The USB drive includes the configuration file and instructional videos on how to add components, which are outlined below, to the system.
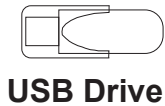

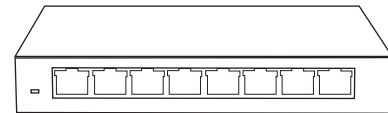

Contents

IX-DV

IX-MV7-HB

USB Drive

PoE Switch

USB Contents

• IX Series Kit Configuration
• Video 1 - Import IX Series Configuration File
• Video 2 - Date and Time
• Video 3 - Adding a Door Station
• Video 4 - Adding a Master Station
• Video 5 - Adding an IXW-MA

Getting Started

Step 1   Unpack contents. Store the USB drive in a safe place as it contains the system's configuration file and "how-to" videos.
Step 2   Plug the PoE switch into a 110V AC outlet.
Step 3   Connect IX-DV and IX-MV7-HB to the PoE switch using Cat-5e/6 cable (not provided).
          It does not matter which port you plug them into.
Step 4   Wait for a solid blue light on the IX-DV and IX-MV7-HB to indicate that the stations have properly powered up.
          This should take approximately 1 minute.

Optional Steps (Recommended)

Note: The videos and configuration file referenced below are found on the supplied USB drive.

Step 5   Watch video 1 to import the configuration file onto your PC.
Step 6   Watch video 2 to change date and time settings.

Optional Steps

Step 7   Watch video 3 to add more door stations to the system.
Step 8   Watch video 4 to add more master stations to the system.
Step 9   Watch video 5 to add an IXW-MA network relay to the system.
