

Keyfob

Smart Credential

NOC-60L8

OS 8K Memory 13.56MHz 37bit Keyfob

Smart Credential

A comprehensive, high-security smart credential designed for flexibility and performance. Featuring MIFARE DESFire® EV3 technology with EAL 5+ security certification, it delivers a reliable and secure solution for a wide range of access control needs.

Key Features

- High Frequency Solution for Increased Security, Privacy and Portability
- Temperature Resilient
- 5 Year Warranty
- Leaf Compatibility

Specifications

Operating Frequency	13.56 MHz
Typical Maximum Read Range	Up to 1" (depending the reader used)
Dimensions	1.57" x 1.22" x 0.19"mm (39.9 x 31.0 x 4.9mm)
Construction	Polycarbonate
Operating Temperature	-13° to +176° F (-25° to +80°C)
Weight	0.134oz (3.8g)
Security Level	EAL 5+
Leaf Compatibility	Yes, LEAF Si Enabled Standard / Leaf Cc Enabled by Request
Slot Punch	N/A
Color	Black with White Center
Number of Applications	No Limitation
Printable	N/A
Warranty	5 Years
