Overview

The N4B-8VA2 is part of Luminys's Mainstream series of security devices. Mainstream series devices are designed with a suite of advanced LumiTechnologies to meet the needs of today's evolving security market.

Equipped with LumiNightKing technology, this camera provides flexible and reliable full-color video in near-dark conditions. It supports covert monitoring with no LEDs or 24/7 white-light LEDs for deterrent monitoring. This camera is also designed with LumiPolarPro and LumiDesertPro technologies to withstand extreme environments. It has both 12 VDC and PoE (Power over Ethernet) for flexible installation.

LumiNightKing cameras are built for mission-critical surveillance in challenging environments such as industrial facilities, transportation hubs, night clubs, and outdoor perimeters. Their dual-purpose capability makes the series ideal for security applications that want a discrete camera to preserve the ambiance of a scene and for scenes that need a visible presence from continuous white-light LEDs throughout the night.

Key Technologies

LumiNightKing technology provides advanced, versatile low-light performance. Cameras with this technology combine a large pixel size sensor, an advacned Al-ISP, and ultra-wide F1.0 to capture images in near-total darkness without relying on IR or visible white-light LEDs. LumiNightKing cameras also have white-light LEDs that can be programmed to remain on throughoout the night for deterrence and lighting.

LumiPolarPro and **LumiDesertPro** technology ensures rugged all-weather performance. LumiPolarPro enables dependable performance in extreme cold in temperatures as low as -40 $^{\circ}$ C (-40 $^{\circ}$ F). LumiDesertPro allows operation in high temperatures up to 60 $^{\circ}$ C (140 $^{\circ}$ F).

Compatible Accessories

Below are the compatible accessories for this product. Not all accessories are included with purchase; some must be purchased separately. For each mount type, all listed SKUs are required to ensure proper installation.

Cross-check the accessories in this datasheet with the Luminys accessory selector tool, and verify that the mount size corresponds to the camera size. Failure to check may result in an incorrect or incomplete mount.

Accessory Combination	SKU(s)	Description
Junction Box*	N5B-J01 (Must be Purchased Separately)	Junction Box for Select Standard Size Bullet Camera Models
	N5B-A01 (Must be Purchased Separately)	G3/4 in. Water Joint for Standard Size Bullet Junction Boxes
Vertical Pole Mount*	N5B-J01 (Must be Purchased Separately)	Junction Box for Select Standard Size Bullet Camera Models
	N5B-A01 (Must be Purchased Separately)	G3/4 in. Water Joint for Standard Size Bullet Junction Boxes
	N3/N5-P01 (Must be Purchased Separately)	Pole Mount Bracket for Select Standard Size Bullet, Dome, and Turret Cameras
Corner Mount*	N5B-J01 (Must be Purchased Separately)	Junction Box for Select Standard Size Bullet Camera Models
	N5B-A01 (Must be Purchased Separately)	G3/4 in. Water Joint for Standard Size Bullet Junction Boxes
	C01 (Must be Purchased Separately)	Corner Mount Bracket for N3/N5/N9/P4/P5 Series Cameras

*All SKUs listed must be used to complete the mounting combination. Verify the compatibility of the listed mounting components prior to ordering. Failure to use all SKUs listed and ensure compatibility may result in an incorrect or incomplete mount.
