- Manage Credential and User Permissions
- Configure Users and Door Groups
- Remote Monitoring and Management
- Simplified Configuration Processes
- Real-Time Network Health Monitoring
- Scalable and Flexible Deployment

Compliance

- NDAA Compliant

Overview

The LumiCloud Access Control Door License offers one year of cloud-based access management for a single door. It allows administrators to configure user access permissions, organize users and doors into groups, and maintain detailed access logs for that specific door. Designed for secure and efficient access control, this license is fully compatible with Luminys web access controllers.

Key Technology

With a LumiCloud access control door license, users can authorize devices for sub-account management or revoke authorization for enhanced security and troubleshooting. Over-the-air (OTA) updates are supported for hassle-free device management.
