

Bullet Type IV Network Camera

Quick Installation Guide

No.	Description
1	Lens
2	IR LED
3	Sun Shield
4	Adjusting Screw
5	Network Cable
6	Power Cable

- 2) Hammer the supplied plastic expansion bolt into the screw holes.
- 3) Route the cables to the cable hole and connect the corresponding power cable and video cable.
- 4) Fix the camera to the wall with the supplied screws.

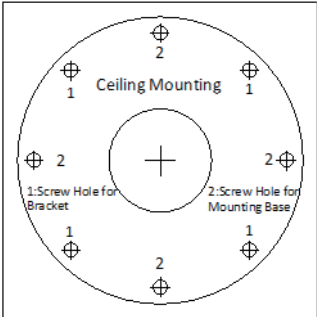

Installation

**Note:**  
Please make sure that the wall is strong enough to withstand three times the weight of the camera.

Steps:

1. Drill the Holes

1) Drill the cable hole and the screw hole in the ceiling according to the supplied drill template.

2. Adjust the surveillance angle.

- 1) Loosen No.1 adjusting screw to adjust the panning position [0° ~ 360°].
- 2) Tighten No.1 adjusting screw.
- 3) Loosen the No.2 adjusting screw to adjust the tilting position [0° ~ 100°].
- 4) Tighten No.2 adjusting screw.
- 5) Loosen No.3 adjusting screw to adjust the azimuth angle [0° ~ 360°].
- 6) Tighten No.3 adjusting screw.
