

WJ-NVF30 WJ-NVF20

Additional Business Intelligence Kit NVF20 is a license kit intended to improve the usefulness of Network Disk Recorder WJ-NV300 / WJ-NV200.

* To use this product, it is necessary to register the license (Registration Key) for Additional Business Intelligence Kit into the WJ-NV300 / WJ-NV200 in use.

Key Features

- **New statistical processing functions such as "People counting" and "Face matching / Age & Gender judgment"**
 - The number of detected human faces can be displayed on a statistical chart separated by age & gender for a single day or a specified time period.
 - Age distribution groups are displayed by separate colors
 - The statistical data can be saved as a CSV file on a SDHC/SD memory card or on a PC connected over a network.

* CSV file: A file that can be edited using a spreadsheet software such as Microsoft® Office Excel®.

• Face matching function

| | WJ-NV300 with WJ-NVF30 / WJ-NV200 with WJ-NVF20 |
|--|---|
| The maximum number of persons to be registered | 64 |
| The maximum number of face images that can be used for face matching | 32 |
| Speed of face matching | 4 faces / s* |
| Multi-Camera displays when face matching function is activated | Max.16 |

* In case of face matching and statistical processing work simultaneously : "2 faces / s"

System Benefits

- Business intelligence added to the current (WJ-NV300 / WJ-NV200) system with a small additional investment only
- Improved identification and video analysis thanks to the high picture quality of the Panasonic products

• All TV pictures are simulated.
